Deep Funding

**Revolutionizing Decentralized
AI Funding And Idea Crowdsourcing
For Bold AI Innovation**

The Worlds Biggest Problems Are The Worlds Biggest Opportunities...

Our mission is to bring together the best developers from all over the world and empower them to **build brilliant solutions to solve real-world problems with AI**.

Deep Funding aims to contribute to a world where AI is truly decentralized and beneficial to humanity - **ultimately serving and uniting people from all over the world.**

Deep Funding is SingularityNET's Decentralized Innovation Fund

01 **Providing diverse funding avenues and resources** for AI developers and researchers to accelerate the development of their ideas and projects

02 **Building the world's largest decentralized, open-source AI platform and marketplace** to offer easy access to a wide range of quality AI tools, while developers can monetize their AI services

03 **Uniting the most brilliant AI developers, businesses and contributors** into a global network to drive the development of Beneficial Artificial General Intelligence (AGI)

04 **Creating the gateway to AGI** by providing developers and businesses with first access to emerging Artifical Super Intelligence via SingularityNET and ASI (Artificial Superintelligence Alliance), while following a strong ethics + safety code

Accessing custom AI solutions and experienced, reliable AI talent is full of challenges...

87%

of organisations struggle to find qualified AI developers and source custom solutions.

91%

of organisations lack the knowledge or infrastructure to do AI research & development on a large scale.

83%

of organisations feel intense pressure to innovate with AI to stay competitive but don't know where to start.

Deep Funding - A Customizable One-Stop Platform To Supercharge Your R&D Results.

Easily source, select and fund innovative **AI solutions, ideas and talent for challenges you need to solve.**

Transparently. Cost-Effective. Fast.

Gain access to high- quality AI developers, projects + ideas on a large scale.

De-risk your innovation investment through 50-50 partnership funding options.

Transparent, decentralized governance mechanism + a range of supporting services for peace of mind.

Keep track of progress and results via milestone based funding - only pay for approved results.

Choose Your Funding Mechanism

1

Sponsor A Funding Round Or Pool In One Of Our Rounds

Define your theme for a funding round or pool.

Receive high-quality project proposals from teams ready to execute on them.

Let the community and our Review Circle rate + vote on winning projects or choose them yourself.

2

Publish A Request For Proposal (RFPs)

Outline a detailed project proposal for a solution you need.

Receive innovative proposals to solve your challenge from individual developers and teams worldwide.

You have no obligation to select a winner or allocate funds.

3

Run an Ideation Challenge Or Hackathon

Define a topic, budget +timeline

Source the most impactful ideas from our engaged AI community, your community, or worldwide.

Only award the best ideas. Choose to let ideas develop into real RFPs or projects afterwards.

4

Host A Funding Round, RFP, or Ideation Challenge In Partneship With Us

Choose your desired funding option.

Reduce your risk by co-sponsoring any funding initiative 50/50 with us.

Benefit from our experience in Decentralized Innovation Funding.

Platform Features

Easy Proposal Creation Flow With Budget + Milestone Definition

Flexible, Transparent Engagement, Review and Voting Mechanism

Your Own Partner Page With All Results +Awarded Projects

Robust Web3 Backend With Escrow-Based Milestones For Full Transparancy + Confidence

Broad Proposal Management Features e.g. Progress + Status Tracking

# Gain Strategic Advantage Through Collaboration.

Constant platform growth and innovation for advanced features, benefits, and user friendliness.

We are experienced leaders in Decentralized AI Innovation Funding who have refined our platform through thousands of hours of trial and error, implementing user feedback and input from our community.

Our community is rapidly growing through weekly online events, active outreach efforts and regular media exposure. Our members count doubled within the last year! More talent = more opportunities!

Our partners benefit from regular exposure to our ecosystem. Strategic opportunities within SingularityNET, ASI and our partner ecosystems are emerging regularly. We are proud to have some of the most renowned, advanced and leading AI researchers and innovators in our global ecosystem.
